INDEPENDENT AUDITORS' REPORT

Members of the Township Board
Township of Reno
Iosco County, Michigan

I have audited the accompanying financial statements of the governmental activities and the aggregate remaining fund information of the Township of Reno, Michigan, as of and for the year ended March 31, 2008, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Reno, Michigan's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

Since it was not practical to extend my auditing procedures into the prior unaudited year, I am unable to express an opinion on the consistency of application of accounting principles with the preceding year.

Township of Reno
Independent Auditors' Report
Page Two

In my opinion, except for the effects of the omission of the information mentioned in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the aggregate remaining fund information of the Township of Reno, Michigan, as of March 31, 2008, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The financial statements referred to above do not include the Management Discussion and Analysis, which is required supplementary information and should be included in order to conform with accounting principles generally accepted in the United States of America.

Township of Reno
Notes to Financial Statements
March 31, 2008

I. Summary of significant accounting policies

The financial statements of the Township of Reno (the Township) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Township's accounting policies are described below.

A. Reporting entity

The Township was organized in 1885. The Township is governed by an elected five-member board. The accompanying financial statements present the Township's operations for which the government is considered to be financially accountable. The Township has no component units and is not responsible for any jointly governed organizations.

B. Government-wide financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Township. For the most part, the effect of the interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from the goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

I. Summary of significant accounting policies (Continued)

C. Measurement focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provided have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when a payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Township.

The Township property tax is levied each December 1st on the taxable valuation of property (as defined by State statutes) located in the Township as of the preceding December 31st. Real property taxes not collected as of March 1st are turned over to Iosco County, which advances the Township 100% for the delinquent taxes.

The 2007 real and personal taxable valuation of the Township totaled \$23,857,214, on which ad valorem taxes levied consisted of .8875 mills for Township operating purposes and voted millage of 1.4163 mills for fire purposes. The fire millage is disbursed to a fire district and the operating millage is reported in the General Fund as current revenue.

I. Summary of significant accounting policies (Continued)

C. Measurement focus, basis of accounting and financial statement presentation (Continued)

The Township reports the following major governmental funds:

The *general fund* is the Township's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Township reports the following fiduciary funds:

The *tax collection fund* is used to account for resources held by the Township in a purely custodial capacity. Money in this fund is from current tax and special assessment collections. Timely distribution to the appropriate fund and local unit must be made in accordance with Section 43 of the General Property Tax Act.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The Township did not have any proprietary funds.

When both restricted and unrestricted resources are available for use, it is the government's policy to use unrestricted sources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The Township's cash and cash equivalents are considered to be cash on hand, demand deposits, short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Township to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury; certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, saving

and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or Nation Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by not less than two standard rating services and which mature not more than 270 days after the date of purchase. The Township is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

2. Short-term interfund receivables/payable

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet in the governmental fund financial statements.

3. Receivables and payables

All trade and property tax receivables are shown net of allowance for uncollectible amounts. Property taxes are levied on each December 1st on the taxable valuation of property as of the preceding December 31st. Taxes are considered delinquent on March 1st of the following year, at which time penalties and interest are assessed.

4. Capital assets

Capital assets, which include property, plant, and equipment are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Township as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded as historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

I. Summary of significant accounting policies (Continued)

D. Assets, liabilities, and net assets or equity (Continued)

4. Capital assets (Continued)

Property and equipment of the Township is depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Building improvements	15
Machinery & equipment	7
Cemetery fence	15

5. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

In the fund financial statements, governmental fund types, recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The Township of Reno does not have any long-term obligations.

6. Fund equity

In the fund financial statements, governmental funds report the reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

7. Comparative data/reclassifications

If the Township had an individual enterprise fund, comparative total data for the prior year would have been presented only in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

II. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Supervisor submits to the Township Board a proposed budget for the fiscal year commencing on April 1. The operating budget includes proposed expenditures and the means of financing them. The level of control for the budgets is at the functional level as set forth in the combined statement of revenues, expenditures and changes in fund balances - budget and actual - GAAP basis - general funds.
2. Public hearings are conducted to obtain taxpayer comments.
3. Prior to April 1, the budget is legally adopted by the Township Board as a resolution pursuant to the Uniform Budgeting and Accounting Act (P.A. 621 of 1978). The Act requires that the budget be amended prior to the end of the fiscal year when necessary to adjust appropriations if it appears that revenues and other financing sources will be less than anticipated or so that expenditures will not be in excess of original estimates. Expenditures shall not be made or incurred, unless authorized in the budget, or in excess of the amount appropriated.
4. The Supervisor is authorized to transfer budgeted amounts between major expenditure functions within any fund; however, these transfers and any revisions that alter the total expenditures of any fund must be approved by the Township Board.
5. Formal budgetary integration is employed as a management control device during the year for the general fund and the capital improvement fund.
6. The budget as presented, has been amended. Supplemental appropriations were made during the year with the last one approved prior to April 1st.

II. Stewardship, compliance, and accountability (Continued)

B. Excess of expenditures over appropriations

For the year ended March 31, 2008, expenditures exceeded appropriations in the activities of halls & grounds and board of review (the legal level of budgetary control) of the general fund by \$135 and \$70, respectively. These overexpenditures were funded by the available fund balance in the general fund.

III. Detailed notes on all funds

A. Deposits and investments

Deposits

The Township's policies regarding deposits of cash are discussed in Note 1. The table presented below is designed to disclose the level of custody credit risk assumed by the Township based upon how its deposits were insured or secured with collateral at March 31, 2008. The categories of credit risk are defined as follows:

Category 1: Insured by FDIC or collateralized with securities held by the Township (or public trust) or by its agent in its name.

Category 2: Uninsured but collateralized with securities held by the pledging financial institution's trust department or agent in the Township's name.

Category 3: Uninsured and uncollateralized; or collateralized with securities held by the pledging financial institution, or by its trust department or agent but not in the Township's name; or collateralized with no written or approved collateral agreement.

COMMENTS AND RECOMMENDATIONS

Members of the Township Board
Township of Reno
Iosco County, Michigan

My examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as I considered necessary in the circumstances.

It was not necessary to make any comments or recommendations.

This letter supplements the information in the Financial Statements and Notes to Financial Statements. It is intended solely for the use of the Township Board and the Michigan Department of Treasury and should not be used for any other purpose.

Barry E. Gaudette, CPA, P.C.
